Noted Roomkeepers—Half a Score of Them -Give Their Promise to Call on the District Attorney Monday Morning-Some Sports Move Uptown.

Half a score of the best-known gamblers in New York were notified this afternoon ot be at the District-Attorney's ocflie next Monday and submit to an examination by Mr. Jerome. The men who were notified have promised to attend in answer to the "courteous" requests sent out by the District-

"Honest John" Kelly called on the District-Attorney without being drawn by a subpoena, but Lou Ludlum was subpoenaed. Mr. Jerome has been assured by Daniell O'Reilly, the smooth counsel for the gamblers, that it will not be necessary to issue any more subpoenaes. Any of the men he wants will visit his office upon request.

One of the invitations to call was directed to Frank Farrell, but the man who was entrusted with its delivery failed in his mission. He is said to have reported that he could not find Farrell and that the house at No. 83 West Thirty-third street had been denude of all gambling paraphernalia. The District-Attorney would like to have some gambler refuse to give

him any information. He wants to make a practical demonstration of the powers he has attained by the passage of the Dowling bill. But the gamblers, acting upon advice of Mr. O'Reilly, will, it is believed, make frank tional admissions that they have been running gambing houses. They will swear that they are out of the business and do not intend to

engage in it during Mr. Jerome's tenure of office. In the course of the Ross, whose picture took one of the next week the District-Attorney hopes to interview all the big gambiers
